Avalere Research and Expertise to be Featured at AMCP and ISPOR Conferences

John E. Linnehan

Summary

In the coming months, Avalere experts will be presenting new data and research at major conferences, featuring insights derived from Inovalon's Medical Outcomes Research for Effectiveness and Economics Registry (MORE² Registry®).

This dataset contains medical, pharmacy, and laboratory data on more than 264 million unique patients and 42 billion medical events comprised from more than 964,000 physicians across Medicare fee-for-service, Medicare Part D, Medicare Advantage, managed Medicaid, and commercially insured markets.

Presentation Details

Academy of Managed Care Pharmacy (AMCP) Managed Care & Specialty Pharmacy Annual Meeting

- Comparison of Healthcare Utilization Among Managed Medicaid Individuals Diagnosed with Multiple Sclerosis Treated with Emergent vs. Established Disease Modifying Therapy in the US
Avalere Authors: Christie Teigland, Allison Petrilla, Alexis Parente, Bryce Sutton
- The Impact of Abuse Deterrent Formulation Opioid Utilization on Healthcare Resource Use Among Managed Medicaid Patients
Avalere Authors: Barton Jones, Teresa Green

International Society for Pharmacoeconomics and Outcomes Research (ISPOR) International Meeting

- How Should Data on Social Determinants of Health be Best Used to Improve Health Outcomes and Reduce Disparities?
Avalere Authors: Christie Teigland, Karl Kilgore
